

## Internal Column Reducers Part No 6360

Slip inside a hollow pole, post or column, providing a reduced diameter spigot for lanterns or brackets. They are also less visible than external reducers, and incorporate a sealing gasket to prevent water ingress.

These are designed to reduce columns and sign posts to accept lanterns or brackets. They are particularly useful for post top lantern conversions.

### Features:

Less obtrusive than the external reducers, being fitted with a secret M8 cap screw

Galvanised to BS EN ISO 1461:2009
